

§ 930.52

or oil and gas lease sales conducted by the Bureau of Land Management). Lease sales conducted by a Federal agency are Federal agency activities under subpart C of this part.

(b) The term also includes the following types of renewals and major amendments which affect any coastal use or resource:

(1) Renewals and major amendments of federal license or permit activities not previously reviewed by the State agency;

(2) Renewals and major amendments of federal license or permit activities previously reviewed by the State agency which are filed after and are subject to management program changes not in existence at the time of original State agency review; and

(3) Renewals and major amendments of federal license or permit activities previously reviewed by the State agency which will cause an effect on any coastal use or resource substantially different than those originally reviewed by the State agency.

(c) The term “major amendment” of a federal license or permit activity means any subsequent federal approval that the applicant is required to obtain for modification to the previously reviewed and approved activity and where the activity permitted by issuance of the subsequent approval will affect any coastal use or resource, or, in the case of a major amendment subject to § 930.51(b)(3), affect any coastal use or resource in a way that is substantially different than the description or understanding of effects at the time of the original activity.

(d) The term “renewals” of a federal license or permit activity means any subsequent re-issuance, re-approval or extension of an existing license or permit that the applicant is required to obtain for an activity described under paragraph (b) of this section.

(e) The determination of substantially different coastal effects under paragraphs (b)(3), and (c) of this section is made on a case-by-case basis by the Federal agency after consulting with the State agency, and applicant. The Federal agency shall give considerable weight to the opinion of the State agency. The terms “major amendment,” “renewals” and “substantially

15 CFR Ch. IX (1–1–10 Edition)

different” shall be construed broadly to ensure that the State agency has the opportunity to review activities and coastal effects not previously reviewed.

(f) *This subpart applies to active applications.* If an applicant withdraws its application to the Federal agency, then the consistency process is terminated. If the applicant reapplies to the Federal agency, then a new consistency review process will start. If a Federal agency stops or stays the Federal license or permit application process, then the consistency review period will be stopped or stayed for the same amount of time as for the Federal application process.

[65 FR 77154, Dec. 8, 2000, as amended at 71 FR 827, Jan. 5, 2006]

§ 930.52 Applicant.

The term “applicant” means any individual, public or private corporation, partnership, association, or other entity organized or existing under the laws of any nation, State, or any State, regional, or local government, who, following management program approval, either files an application for a required individual federal license or permit, or who files a consistency certification for a required general federal license or permit under § 930.31(d) to conduct an activity affecting any coastal use or resource. The term “applicant” does not include Federal agencies applying for federal licenses or permits. Federal agency activities requiring federal licenses or permits are subject to subpart C of this part.

§ 930.53 Listed federal license or permit activities.

(a) State agencies shall develop a list of federal license or permit activities which affect any coastal use or resource, including reasonably foreseeable effects, and which the State agency wishes to review for consistency with the management program. The list shall be included as part of the management program, and the federal license or permit activities shall be described in terms of the specific licenses or permits involved (e.g., Corps of Engineers 404 permits, Coast Guard bridge permits). In the event the State agency chooses to review federal license or

permit activities, with reasonably foreseeable coastal effects, outside of the coastal zone, it must generally describe the geographic location of such activities.

(1) The geographic location description should encompass areas outside of the coastal zone where coastal effects from federal license or permit activities are reasonably foreseeable. The State agency should exclude geographic areas outside of the coastal zone where coastal effects are not reasonably foreseeable. Listed activities may have different geographic location descriptions, depending on the nature of the activity and its coastal effects. For example, the geographic location for activities affecting water resources or uses could be described by shared water bodies, river basins, boundaries defined under the State's coastal nonpoint pollution control program, or other ecologically identifiable areas. Federal lands located within the boundaries of a State's coastal zone are automatically included within the geographic location description; State agencies do not have to describe these areas. State agencies do have to describe the geographic location of listed activities occurring on federal lands located beyond the boundaries of a State's coastal zone.

(2) For listed activities occurring outside of the coastal zone for which a State has not generally described the geographic location of review, States must follow the conditions for review of unlisted activities under § 930.54 of this subpart.

(b) *General concurrences for minor activities.* To avoid repeated review of minor federal license or permit activities which, while individually inconsequential, cumulatively affect any coastal use or resource, the State agency, after developing conditions allowing concurrence for such activities, may issue a general public notice (*see* § 930.61) and general concurrence allowing similar minor work in the same geographic area to proceed without prior State agency review. In such cases, the State agency must set forth in the management program license and permit list the minor federal license or permit activities and the relevant conditions which are covered by the gen-

eral concurrence. Minor federal license or permit activities which satisfy the conditions of the general concurrence are not subject to the consistency certification requirement of this subpart. Except in cases where the State agency indicates otherwise, copies of federal license or permit applications for activities subject to a general concurrence must be sent by the applicant to the State agency to allow the State agency to monitor adherence to the conditions required by such concurrence. Confidential and proprietary material within such applications may be deleted.

(c) The license and permit list may be amended by the State agency following consultation with the affected Federal agency and approval by the Director pursuant to the program change requirements found at 15 CFR part 923, subpart H.

(1) Consultation with the affected Federal agency means, at least 60 days prior to submitting a program change request to OCRM, a State agency shall notify in writing the relevant regional or field Federal agency staff and the head of the affected Federal agency, and request comments on the listing change. The notification shall describe the proposed change and identify the regional Federal agency staff the State has contacted for consultation.

(2) A State agency must include in its program change request to OCRM a description of any comments received from the affected Federal agency.

(d) No federal license or permit described on an approved list shall be issued by a Federal agency until the requirements of this subpart have been satisfied. Federal agencies shall inform applicants for listed licenses or permits of the requirements of this subpart.

§ 930.54 Unlisted federal license or permit activities.

(a)(1) With the assistance of Federal agencies, State agencies should monitor unlisted federal license or permit activities (e.g., by use of intergovernmental review process established pursuant to E.O. 12372, review of NEPA documents, FEDERAL REGISTER notices). State agencies shall notify Federal agencies, applicants, and the Director of unlisted activities affecting
